Helium Fund (the "Sub-Fund")
 a sub-fund of HELIUM FUND (the "Fund")
 Class A-EUR Shares - (ISIN Code: LU0912261541)
 The Fund is managed by Syquant Capital SAS

Objectives and investment policy

- The Sub-Fund is a diversified sub-fund which aims to deliver absolute and regular performance associated with a low level of volatility. There is therefore no official benchmark for the performance. However, over a three years period, the performance may be compared, a posteriori, to the Libor EUR 1M (1 month EUR Inter-Bank Offered Rate).
- Achievement of these objectives requires the implementation of arbitrage strategies with low correlation to Equity market trends.
- These strategies are related to Equity markets, futures markets or financial instruments with an optional component, mainly in the following geographical area: Europe and North America.
- Strategies implemented by the Sub-Fund are primarily focused on Merger and Acquisitions arbitrages, Corporate Actions operations, Derivatives arbitrages, Dividend Arbitrages and Long/Short strategies.
- The Sub-Fund's portfolio allocations between the various strategies depend on market conditions and are discretionary implemented according to manager's appreciation of their expected returns.
- The Sub-Fund may invest up to 100% of its assets in international equities including equities from emerging markets. The management will be discretionary without any sectorial, geographical or capitalization constraint. Currency exposure linked to these investments may be partially or totally hedged.
- The Sub-Fund will not invest more than 10% of its assets in shares or units of other French or European Funds.
- The Sub-Fund may invest up to 100% of its assets in debt or monetary instruments. Management of these instruments will be discretionary without any constraint in terms of rating or Private/Public repartition.
- Net revenues of the Sub-Fund are reinvested.
- Subscription and redemption orders are centralized every Thursdays before 5 p.m. (Luxembourg time) by the Depository CACEIS Bank Luxembourg. They are processed based on the Friday's weekly Net Asset Value.
- Recommendation: this Sub-Fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the fund.
- The risk category shown is not a target or a guarantee and may change over time.
- The lowest category does not mean risk free.
- The Sub-Fund presents a defensive profile in line with its targets and its investment policy which privileges absolute performance associated with a low volatility level. Therefore its ranking is 2 on the synthetic risk & reward indicator scale.

- Major risks for the Sub-Fund not included in the indicator are:
 - Counterparty risk: this is the risk of default of a market participant preventing it from honoring its commitments in respect of the Fund's portfolio.
 - Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing the Fund's portfolio.
 - Credit risk: this is the risk of sudden deterioration in the creditworthiness of an issuer or that of its default.
- The occurrence of any of these risks may lower the net asset value of the Sub-Fund's portfolio.
